1. Individual lake reports on lake activities

A. Woodridge: Boats and docks are out for season. Great year overall, minimum number of weeds and water quality was great. Carp now about 20 inches long and they travel as a group

B. Dog Pond: Planning on Hydro raking starting on 9-10 or 9-17 to be done by New England Aquatics unfortunately the vendor could not get their equipment into the water because of size. They were told they need a crane to access water. Now searching for local crane for next year.

C. West Side: No Report

D. Tyler Lake, Water quality is excellent and so is weed control. Solitude still has not done final report as required and final payment is being withheld until their obligations have been met. North cover not treated because of endangered species location. NEAR reports we have some Curley Leaf Pond Weed, which is new to us. Will hold meeting to discuss plans for next year with Hydro raking a possibility.

E. November 29, 2022 meeting and December 27, 2022 have been cancelled. If an emergency meeting is need, it can be called.
